Studio 9294 comprises two adjacent warehouse style, blank canvas studio spaces (Studio 92 and Studio 94), with a combined standing capacity of over 1000. These studios are connected via the canal-side terrace area and by an internal corridor.

These can either be booked individually, or jointly, depending on the size of the event. These are exceptional, light, airy spaces, perfect for any type of function, ranging from corporate away days and presentations, to weddings, summer (and Christmas) parties, photo shoots and exhibitions. We can provide catering, and have our own projectors and a state of the art PA system.

In addition to this, both spaces have access to generous amounts of external space, a large courtyard at the front of the venue (perfect for foodtrucks and BBQs) and our stunning waterfront terrace, which can be accessed by canal boat for guests looking to make an entrance.

Studio 92 is currently set up as our 'games room' with a full 9 hole crazy golf course (each hole designed by a different local street artists), ping pong, table football, pool and retro video games.

This whole set-up can make a great ice-breaker or team building activity for an event, or can be removed if the space is required.
